S.M Absar Rashid

Web Developer | Teacher | Full Stack Web Developer at Pinovation Tech Ltd. of Bangladesh.
Dhaka, Bangladesh

Summary

As a dynamic and versatile Full Stack Web Developer, I bring 5 years of hands-on experience in crafting innovative and user-centric web solutions. Proficient in HTML, CSS, and JavaScript, I specialize in building responsive and visually stunning user interfaces. My expertise extends to React for front-end development, where I've demonstrated a keen eye for UI/UX design principles, ensuring an optimal and engaging user experience.

On the backend, I'm well-versed in ASP.NET and C#, harnessing their power to develop robust and scalable applications. My proficiency also extends to building RESTful Web APIs, contributing to seamless communication between the frontend and backend. This holistic approach allows me to tackle complex projects as a Full Stack Developer, bridging the gap between user interface and server-side functionalities.

I am a programmer with 4 to 5 years of experience in the job market, specifically in developing ERP systems and manufacturing software for companies in the Trading and Real-estate Industries. I also have experience in developing CMS or management systems such as project management and shop management, as well as E-commerce sites using various technologies such as ASP.NET MVC, ASP.NET Core, JavaScript, Razor View Pages, ASP Web Forms and SQL Server.

My skills include proficiency in programming languages such as C#, ASP.NET, .NET Core, JavaScript, ReactJS and basic knowledge of Python. I am also experienced in using frameworks and libraries like Entity Framework, Entity Framework Core, and ADO.NET. I have knowledge of software architecture patterns such as Layered Architecture with Dependency Injection and the Model-View-Controller (MVC) pattern.

In terms of front-end development, I am skilled in web design using HTML5, CSS3(Bootstrap), and JavaScript libraries like jQuery, ReactJS, Ajax. I also have experience in developing desktop

software using C#. I also worked in Xamarin to build various real-life mobile apps in android.

My knowledge of databases includes working with SQL Server 2014 and 2019, and using stored procedures, views, and functions.

For reporting purposes, I am proficient in using RDLC and HTML. I have experience in using Agile and Waterfall software development methodologies and versioning tools such as Git and Trello for managing team projects.

Let's connect and explore opportunities to collaborate on innovative projects or discuss the latest advancements in web development!
